Curriculum vitae

Name	Stephen Wanyoike Kamara
Age	22
Phone no	0742739981
Address	49, 10105
Email	stephenwanyoike528@gmail.com

Vision

As an IT student my career interest leans more toward **web application design and networking**. I feel comfortable with networking tasks more than web application development though am quite good at both. I hope to gain industrial experience and get used to working under strict industrial timelines and pressure.

Education

Year	Institution	Deliverable
2021 - 2024	Dedan Kimathi university of Technology	Degree (**undergraduate**)
2015 - 2018	Baricho Boys high school	KCSE (B+)
2004 - 2014	Kambi Primary School	KCPE (393)

Skills

- ❖ I possess considerable prowess in **networking** having completed my networking undergraduate course plus a considerable time spent working with cisco packet tracer.
- ❖ **Web application design.**
- ❖ I am enrolled in the cisco CCNA with David Bombal as my mentor.
- ❖ I also possess cybersecurity skills especially **pentesting** having completed my certification **in introduction to cybersecurity and the famous cisco begginer's course linux fundamentals.**
- ❖ I am a member of the hackthebox academy community with Networkchuck as my mentor.
- ❖ Teamwork.
- ❖ Teaching and training.
- ❖ Self-drive (minimum supervision)

Work experience

Year	Institute	Position

Jan 2020 – September 2020	Naromoru victory academy	Teacher (English, Kiswahili and basic computer)
April 2019 – July 2019	Mt. Kenya Naromoru computer training institute	Instructor on basic computer packages

Projects

1. **Windows port scan** – project requirement for internal attachment end of year 2. I had been having trouble with my windows security and needed a quick way on how to automate the closing and opening of udp and tcp ports whenever i wanted.
2. **Simple ice cream order app** – project requirement for 3rd year android development. The app is limited to payment by m-pesa only though with a few upgrades, i can integrate credit card payment. Will upload it to github account upon completion.

Certifications

1. Introduction to cybersecurity
2. Ccna1
3. Ccna2
4. Ccna3

Currently working on a project – tomato leaf disease detection using machine learning.
